

TO OUR 850 TURK NEIGHBORS:

Cahill Contractors, LLC is the General Contractor for the 850 Turk Street Affordable Housing Development. It has been a few months since our last project newsletter, and moving forward we will provide periodic updates so our neighbors are aware of onsite activities. These notices will also include information about any potential traffic changes as we work to connect the building to utilities in the street.

This month, crews will continue installing rebar and placing concrete for the building's elevated decks. Construction is progressing and additional activities are beginning across the site. Scaffolding has been installed around the exterior of the building in preparation for the start of exterior finishes.

Please note that during scheduled concrete pours, traffic control will be in place on Turk Street to accommodate concrete pumps and delivery trucks. A safe pedestrian path of travel will always remain open and maintained.

Typical construction hours are **7:00 AM – 3:30 PM**.

Cahill Contractors is committed to maintaining the highest safety standards while minimizing disruptions to our neighbors. We appreciate your cooperation and patience as we continue construction of this affordable housing development, which prioritizes SFUSD educators, district employees, and applicable City Housing Preferences.

For construction-related questions, please contact **Site Superintendent Daniel Esposito** at **(415) 743-0590**.

Thank you again for your patience and understanding.
